

## Hello friend

I hope all is well with you.

The purpose of my letter is to bring to your attention that I'm raising \$240,000 to put 800 solar lamps throughout the village of Jonc Dodin, Haïti , where I was born and raised. It's a place that I proudly call home in spite of its difficulties and misfortune.

There's no electricity, no sewer nor potable water . I'm on a mission to change all that and humbly come to you seeking your partnership to make that dream a reality. JONC-DODIN is about 98 miles away southwest of Port-Au-Prince and measures about 20 miles radius and have an estimated 4875 residents living in complete darkness at night .Together, we can change that. We're seeking to raise \$240,000 to put 800 solar lamps throughout the village. Whatever you can give will certainly have an impact as many hands make the load light.

As a community leader, I know what it takes to get things done. I've spearhead a lot of successful projects already in that community.

- 1.Construction of a community school from K-12 ( 2001)
- 2.Renovations of 4 wells to provide potable water. (2023)
- 3.Construction of a hospital which will be opened in January 2024. ( 2010-2023) The solar project is not a difficult task to undertake when I have champions like you on my side.

Together we can make the difference between DARKNESS and LIGHT for the people of JONC DODIN.

Standing in the gap for the less fortunate,

Villate Castor
